## About Us

CSH are a family owned and operated company that have been providing recycling and waste management services since 1981, operating within Colchester and East Anglia as one of the region's leading recycling and waste management companies. We have a team of professionals who are highly trained in their specific fields of operation.

The company operates from a 15-acre site in Wormingford in Colchester

We handle over 75,000 tonnes of waste per annum which passes through one of our two M.R.F.s (Materials Reclamation Facility) allowing us to better divert waste from landfill.

Our first-class recycling service is part of our efforts to provide a cleaner, greener future for the next generation.

Our M.R.F.s are designed to handle mixed municipal waste, construction waste and pre-segregated recyclables.

Materials are sorted into the various grades required to feed into the recycling chain, CSH Recycling equipment includes Bag Opener, Baling Equipment, Picking Line, Magnets, Shredders', wheeled material handlers and dedicated bays and containers for all types of recyclable materials.

CSH Operate a trommel, which is a rotating cylindrical screen which assists in the recovery of useful fractions from building waste. This along with our Soil Shaker allows us to separate various grades of hard core and soils.

We currently separate, re-use, recycle or repurpose more than forty different types of material.

### Why Choose CSH Environmental?

- Widely experienced, qualified and long-term staff compliment.
- Our logistical asset management system records all services we provide to our customers, including time of collection, type of material collected and its weight. This allows us to provide accurate 'LIVE' data to our customers.
- Customer Portal that allows customers to access their own information any time they want.
- We have highly experienced staff who have a complete technical knowledge of our operations and a good understanding of fulfilling customer requirements.
- Local company, local knowledge

We are also in a position to supply ad-hoc equipment such as Skips, Rolon's and one-off collections of bulky waste.

CSH Environmental have maintained good relationships with many clients over the past 43 years and in that time have introduced innovation and remained responsive to the changing requirements of our business. In fact, we think we are the best placed in terms of our reputation for service, facilities and geographical location.

In the meantime, we hope that the attached will be of interest. We actively encourage clients to visit us in order that they may assess first hand our facilities and the likely level of support they can expect if they intrust their business to CSH Environmental.

## Our Services

### Trade Waste Collections

**In the commercial, industrial and retail environments it can be difficult to keep track of just how much waste each individual activity produces, and the legislation surrounding the collection and disposal of that waste. Luckily, when you choose CSH Environmental, we can make the waste management process a great deal easier.**

Offering unparalleled trade waste collection solutions for schools, hospitals, hotels and shopping centres, it's fair to say we're commercial waste experts. Here's a look at some of the commercial waste collection services we can offer your business:

- [Waste bag collections](#)
- [Wheelie bin hire](#)
- [Eurobin hire](#)
- [Rear end loader containers](#)
- Lockable containers
- [Advice and recycling](#)
- [Food Waste](#)
- [Glass collection and recycling](#)

As you can see, our services are truly comprehensive. Our wheelie bins range from T140 to T1100 litres, while our waste bags can be used for both general waste and mixed recyclables.

### Commercial and Trade Waste Disposal

As an environmentally conscientious company, CSH Environmental has a clear trade waste disposal aim: achieve zero to landfill. This, we believe, is more than attainable given our new state-of-the-art facilities in which we divert around 99% of your waste from landfill.

## Skip Hire

**As one of the leading skip hire companies in the Colchester region, CSH Environmental understand the importance of getting the correct skip to suit your particular project, and also for staying within industry regulations. That's why we offer a variety of sizes, from 2 to 14 cubic yards, for local skip hire.**

With our skip hire service, we want to simplify all of your waste management issues, regardless of whether your project is domestic or commercial. This is why we offer both open and closed skips depending on your requirements. Further, we'll arrange a drop-off and collection time that works for you and your schedule – even organising the necessary road permits. With over 40 years of experience in the skip bin hire industry, you can rest assured that the process will run smoothly.

Our skips are suitable for the following kinds of waste:

- [Domestic Skip Hire](#)
- [Construction](#)
- Industrial
- [Commercial](#)
- [Waste Compaction](#)
- [Asbestos](#)
- [Hazardous Waste](#)
- Plasterboard

If you have any queries regarding our skip bin hire service that we offer throughout Colchester, Chelmsford & Ipswich.

## Waste Management

Here at CSH Environmental, we're waste management specialists, so we understand just how important a comprehensive waste management service can be to the maintenance of a clean and tidy business premises. Always staying up to date and working within the parameters of current legislation, we can dispose of commercial or industrial waste in a cost-effective manner, whilst ensuring that as much as possible is recycled. Here's a look at our waste management services at a glance:

## National Solutions

- Total waste management
- Regular site visits
- [Waste compaction](#)
- Baling services
- Difficult wastes
- Drum crushing

## Specialist Waste Management Experts

What really sets us apart, however, is our specialist waste management services. No matter what industry your waste relates to, from asbestos removal to WEEE recycling and hazardous waste management, you can rest assured our team of hazardous waste specialists will neutralise any danger posed by the waste and remove it safely. We even have a fully qualified chemist on site who can test for differing waste types and advise accordingly.

## Liquid waste disposal

## Asbestos Disposal

## Hazardous Waste

## Recycling

At CSH Environmental, we strive towards a better, greener tomorrow, that's why our motto is "Recycling for the Future". We are involved in numerous recycling initiatives, however, none of it would be possible if it wasn't for the investment in our state-of-the-art recycling centre and waste transfer station.

With these facilities, we are able to divert around 99% of all the waste we collect away from landfill. Here are some of the materials that we work with at our centres through our recycling services:

[Cardboard & Paper Collection & Recycling](#)

[Fluorescent Tube Recycling](#)

[WEEE \(Electrical\)](#)

[Wood & Timber Recycling](#)

[Plastic Recycling](#)

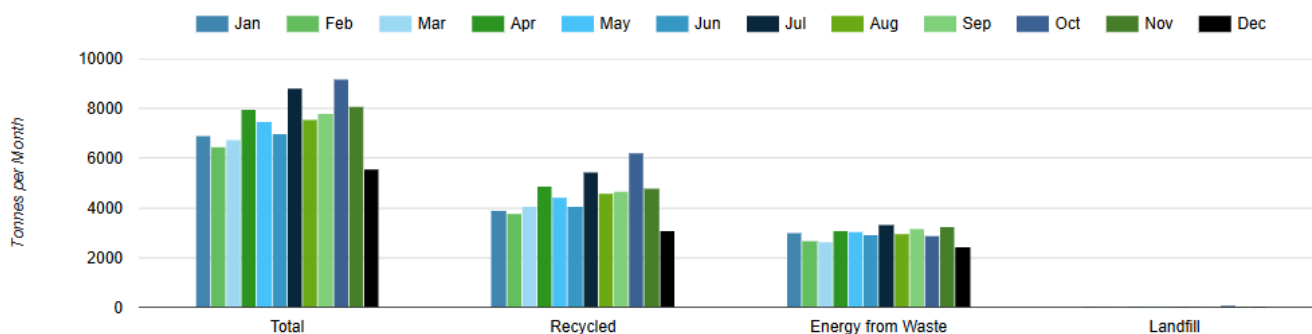

[Glass collection and recycling](#)

We also recycle Hardcore, Metal, Soil, Plasterboard and Food Waste

**Zero to Landfill – Our advanced Recycling Centre ensures that everything that can get recycled – does get recycled.**

Over the course of a year, our recycling figures include handling over 80,000 tonnes of waste through our various services including skip hire, wheelie bin hire and trade waste collection service. Of the waste we collect, our aim is to recycle at least 99% of it and prevent it from being left in landfill sites.

Our recycling figures for 2024:-

## Community Projects & Charities

### [Essex Young Farmers Recycling Campaign](#)

Here at CSH Environmental, we're committed to making good use of the waste we collect from all sources – our [latest figures](#) show that over 99.7% of the waste we collected in 2024 went for recycling or for creating energy.

#### How CSH Environmental supports EYFC

Each year, we work with Essex Young Farmers Club (EYFC) to improve the amount of agricultural waste being reused and recycled while also raising much needed resources for local branches.

Traditionally, much of the waste generated in the agricultural industry – such as cardboard packaging and woven PP bulk bags – has been sent to landfill rather than being collected for recycling. Our campaign is designed to promote a more eco-friendly approach to dealing with agricultural waste while also raising funds for EYFC.

The scheme is very simple: as we recover certain waste materials from local farmers for recycling, we'll make a donation to EYFC to help them support rural communities in our county.

The waste materials that are included in this scheme are:

- Cardboard packaging
- Clean or washed chemical cans and agricultural containers
- Fertiliser and seed bags (PP woven sacks)

In 2024, we raised £12,800 and in 2024 we were delighted to raise £16,900 for Essex Young Farmers Club through this innovative scheme.

We are proud to announce that CSH Environmental are sponsors of [Essex Wildlife Trust](#) ☀️

As the leading conservation charity protecting wildlife in Essex for over 60 years, this incredible organisation have been saving and improving important wildlife habitats, and we are proud to support such a brilliant cause.
